Astrological Report for
Heath Ledger

Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa - a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

Go for it! Do it now and ask questions later, for you are a born leader, always first and never afraid to go it alone. Your sense of mission makes for impulsive, sometimes rash (but always brave) actions. Your motto is: Don't think about it, let's get the show on the road.

Sun in Aries

There is a lack of harmony between your environment and your ambitions. What you need most is not always at hand to make the kind of progress you envision. Or, when the support is there, you can't get the instruction or direction you require. You may have forgotten where it was you wanted to get to, sort of "all dressed up, but which way to go?" It could be historical, too, as simple as being torn between your mother and your father -- a struggle between that which seeks to nurture you (and perhaps baby you) and your ambitions -- a need to succeed and be all that you can be.

Moon Square Sun

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable things. This is because you understand what is behind and connecting things. Much of your own self-image is wrapped up with your ability to work with images -- dreams and the imagination. You would make a good teacher in areas of music, philosophy, and all that is mystical.

Sun Trine Neptune

You resist change and resent others prying into your personal affairs. You prefer things be left just as they are. Self-analysis and any unnecessary probing go against the grain. The unexamined life is what you champion. Your personal contacts (or lack thereof), coupled with a need for growth and transformation, can build up to the point of eruption. For all your discretion, you still tend to find yourself battling it out with authorities on a regular basis.

Sun Opposition Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You can sense and understand the mood and feelings of others, and are excellent at counseling and nursing. You are quite emotional, and have a natural sense of that which pleases, knowing the mood of the crowd. You can be overly protective (or protected), but are good at parenting and creating a home. Quite domestic.

Moon in Cancer

You are sometimes torn between a desire to progress and be all that you can be versus a tendency to dwell in the past, resting on your laurels. Your inner, more domestic side struggles against authority. You could feel caught in the middle.

Moon Square Sun

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Trine Venus

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Sextile Saturn

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

Mercury in Pisces

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

Mercury Conjunction Mars

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Trine Jupiter

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Trine Uranus

You find talk of the other world, and mysticism in general, to be a real hassle. You struggle to keep this and any spiritual material at bay and, like your mind, down-to-earth and quite conventional. It may be hard for you to think about spiritual matters, much less express them in words or thoughts. You like your dreams neat and are troubled when thoughts of other lives and what-not intrude. You would rather not talk about it.

Mercury Square Neptune

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You have deep commitments and appreciate sacrifice and duty on the part of others. At home in the world of the dreamer and mystic, you have great intuition. You are always willing to sublimate and take the back seat. Domestic at heart, you love family life. A true romantic. Musical, psychological, poetic, gentle.

Venus in Pisces

A born charmer with an innate love and appreciation for other people, especially children. A sense of color, of music and all of the arts -- the beautiful and the comfortable. Always welcome in a group, you are a connoisseur of things bright and kind.

Moon Trine Venus

You don't like rules and prefer to live in disorder rather than submit to outside regulation. Your particular value system manages to bring you into conflict with others, especially those in authority. You seldom appreciate the law in any form and end up challenging it almost every time. You persist in ignoring your responsibilities, and you let your obligations pile up until a confrontation is inevitable. Delinquent.

Venus Opposition Saturn

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have a sense of true understanding and real sacrifice. Dedication to long-range goals, you are future-oriented. Intuitive, you have an inner drive for all that's psychological, religious, and mystical. Artistic too. You are sensitive and can get lost in the clouds on occasion. You are not too logical or practical.

Mars in Pisces

You think and communicate with great force and in a very direct manner. You are quick with words, quick to anger, and often sorry later for the sharp things you say. You have great mental concentration and perseverance. You can articulate your emotions.

Mercury Conjunction Mars

You are a great doer, an accomplisher. Your outgoing nature, coupled with extremely skillful ways of handling other people, make you a natural for working with or for the public. You would make an excellent teacher or coach, and helping others to make career decisions is a skill you

possess. Your career is never a problem, for you have the kind of drive that others can only dream about. Everything works out well for you.

Mars Trine Jupiter

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A career in big business is possible, for you like broad, secure foundations. It is important for you to feel safe, and you are very domestic -- family, home, and kids. Supportive, nurturing, you use your intuition and gut instinct over thought and deliberation. Fiercely loyal, you are a street fighter when protecting your own interests or those you love. Very dependable.

Jupiter in Cancer

Good ability to "get the picture" (the gist of things) and to communicate this to others. In fact, helping others to find their way through life (for example via vocational counseling) is indicated. Religious ideas and concepts are natural.

Mercury Trine Jupiter

Tremendous drive to succeed, plus some sheer good luck, brings real accomplishment. Lots of physical energy available too. Very ambitious and motivated. Could serve as group leader or manager. Family person. Career and marriage work well.

Mars Trine Jupiter

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have a tendency to avoid responsibility or work and to put off taking care of details -- delinquency. Application and practice is the remedy. Be specific. Take care of every last detail. Develop and use your critical faculties. Take care of business.

Saturn in Virgo

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

Moon Sextile Saturn

Enjoying yourself at the expense of actual responsibilities may find you in a sorry way from time to time. It can be hard for you to enjoy yourself and appreciate life, so when you do, you tend to do it up right. This is an ongoing condition.

Venus Opposition Saturn

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Throughs & Insights

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

Mercury Trine Uranus

Neptune: Ideals & Imagination

A born mother to any and all forms of life. Very compassionate and attentive (aware of) the needs of others. Spiritual ideas and concepts are a way of life here. There is deep appreciation, even love for, movies, big ideas, themes. Visionary director.

Sun Trine Neptune

Your ideas, thoughts, and mentality may struggle to keep a damper on a tendency towards mysticism and the spirit. Your dreams and ideals may be difficult for you to express or talk about, but are a source of much energy and not a little tension.

Mercury Square Neptune

Pluto: Inner Change and Growth

Your personal changes, the need for growth and transformation, can be intense to the point of being counterproductive. Your directness may find you in power struggles with others, especially those in authority. You tend to battle it out.

Sun Opposition Pluto

Emotional stress stemming from your insistence on analysis and psychological probing at the expense of feelings -- yours and other people's. No one will support it. Your sensitivity and vulnerability often find you at odds with the group or with others.

Moon Square Pluto

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

Mercury Conjunction Mars 01°36'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You don't like rules and prefer to live in disorder rather than submit to outside regulation. Your particular value system manages to bring you into conflict with others, especially those in authority. You seldom appreciate the law in any form and end up challenging it almost every time. You persist in ignoring your responsibilities, and you let your obligations pile up until a confrontation is inevitable. Delinquent.

Venus Opposition Saturn 00°56'

However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto 06°56'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are a great doer, an accomplisher. Your outgoing nature, coupled with extremely skillful ways of handling other people, make you a natural for working with or for the public. You would make an excellent teacher or coach, and helping others to make career decisions is a skill you possess. Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

You are somewhat of a late bloomer, spending your childhood up until the age of 11-12 in a pleasant and more social frame of mind. At that time you will turn away from the more outward scene and begin to take a greater interest in your inner, subjective life. From the age of 11-12 until perhaps 18-19, you will find yourself ever more on your own, quite inner-directed and always independent. From the age of 19 until 25-26, this will intensify even further and you will examine and explore deep within you. Those who love you may well worry and feel that you are hard to reach and understand. You yourself could feel too much on your own, even alone. This solitary period will end shortly after your 25th year, at which time you will begin to emerge and to build and move outward. Your rise to social and material success will be quite remarkable from that point forward. Your early thirties are years of great success.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

Want Air

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very low burn rate, which indicates a less turbulent and more straightforward life style. Your talents are self-evident and clear. They don't require training and learning on your part in order to put them to use. The particular areas of clarity follow:

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through

changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Neptune

An innate and true sense of psychology. Able to penetrate and get to the heart of any matter, without hesitation or wavering. This gift is full-blown and requires no training. Your low burn rate here means that you are always direct and to the point.

Pluto

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

Your Soul Type

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find

you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.
