## **The Players: The 10 Planets**

### **Part One: The Lead Roles**

#### **The Sun**

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Angelina and Brad.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

#### **Sun in Virgo**

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Virgo, gives your partnership great powers of observation. The keyword phrase for Virgo in traditional astrology is "I analyze." Your two minds have an ability to discriminate reality from foolish thinking in a heartbeat.

There is a strong belief in the work ethic. Our first Virgo cave dwelling ancestors could work circles around their contemporaries. A primordial tendency of this dependable earth sign is a conscientious attitude about work and duty.

What does this mean for you? Encourage each other to find a meaningful career. Learning new skills to hone a craft can delight either of you. Your business sense as a couple is probably sharp. The two of you can spot the bottom line of a business deal as fast as a cat's eyes adjust to the dark. People will find you well organized, even if you don't always think this is true. You could operate a business together successfully.

Perfection is another side of your relationship. It has been said that Michelangelo created his Pieta by carving out the imperfection that did not belong in his vision of the sculpture. What was left was a breathtaking masterpiece. Perfection is a tricky thing. The two of you must become masters at knowing when to turn it off. Keep repeating that there are no perfect people so you don't expect this from each other.

You both can display a keen eye for detail. This can turn into being a critic. Learn to acknowledge each other's good points. It's wise! See the cup as half full, rather than half empty. It will go far in making you a happy couple. Putting each other under a microscope of scrutiny makes you nervous.

Diet and health can be topics of interest. You may be running or walking in a race together to raise money for a charity. You might both believe in getting regular exercise. Walking, yoga or aerobics can be a daily ritual. A concern for each other's health comes naturally.

In your communication, have you already realized you can't change each other? Don't bother trying. Be supportive of the other's desire to grow. Work harder on the problems than on one another. Let your words and thoughts be guided by a sincere desire to support each other's most cherished ambitions. Fatigue is apt to wear down your clarity. Make sure each of you is mentally alert and awake when you need to talk about a serious issue.

---

## **Sun in the Twelfth House**

Your Sun is lighting up the 12th house. Idealism, romantic atmospheres and aesthetic interests are big in your companionship. You feel wonderful when you believe in each other. Spiritual values may be a deep foundation for your relationship. Each of you can inspire the other to have faith in intangible forces. A shared devotion to causes or to values encourages intimacy.

Creative energies may lead you to explore individual or joint ventures in aesthetic expressions. Traveling to places, or participating in things that stimulate your imagination, can be mutually enjoyable. There is a capacity to enjoy the unique manner in which each of you creates a sense of beauty and inner peace.

Dedication to each other can be intense. Caring for one another during times of crisis may be powerful. Your intuitive clarity can make communication flow easily.

Do not expect each other to be gods! There will be mistakes made. No relationship is perfect, as there are no perfect people. Guilt is not a friend to either of you. Do things for each other more out of love and respect. You cannot save the other from some pain in the world. Balancing your dependency needs is a good policy to adopt. A clear sense of individual boundaries will keep your relationship healthy.

Talk! Endless silence will find you drifting apart. Communication will bring you back to a happy medium. Since you are probably very sensitized to the emotions of each other, some space can help. But do pick a time to talk! Keep realistic expectations for self and each other.

## **The Moon**

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

## **Moon in Virgo**

With your relationship Lunarized through the sign Virgo, you share an allegiance to the work ethic. You probably believe there is no sense in doing a job if you are not going to give it your best effort. You can possess a keen awareness of each other's emotions. Concern for each other's health is endearing. There can be a strong interest in diet and staying physically fit. Exercise sure is a big help in working off nervous energies.

A sharing of practical skills and know-how is something you can do for each other. You can enjoy taking workshops or classes together. Learning how to integrate your knowledge can pay dividends. You can be helpful in giving your partner business advice. Don't be in a hurry to give your critique of the other's job performances unless you do so delicately. Criticism could be taken the wrong way if delivered insensitively.

Be sure to rest at home, as well as work on projects. Learning to share household responsibilities makes you feel you are part of the same team. Creating order where you live probably is good for your mental health.

Have you grown tired of waiting for your partner to be perfect? Neither one of you will ever be free from making a mistake. Keep your expectations reasonable. You can't do the impossible. The two of you are conscientious about fulfilling your obligations. Others will appreciate your sincerity in taking responsibility seriously.

---

Beware of becoming a workaholic. There is a temptation to push yourselves endlessly until a project is completed. Being too attached to endless details can produce a lot of working overtime. Be sure to make time for fun experiences.

Let your imaginations guide you to support each other's desire for growth. Listen with an open ear and communicate with an open heart. This will keep you fond of each other.

### **Moon in the Eleventh House**

Your relationship might start as a friendship and cross over into a romance. There are needs for closeness woven in with spontaneous expressions of individuality. You both will feel more secure when your needs for autonomy are recognized.

Planning for the future can be exciting. You both have unique tastes that must be carefully allowed to be cultivated. There are some paths that will be for you as individuals only. It will be apparent where you can sail through life happily as a couple. Mutual support for goals warms your hearts. Your partnership stimulates new thinking in others. A group you belong to will benefit from your unique insights. The two of you value your friendships. It is essential that you stay in touch with your friends as it enriches your being together. Your perceptions about societal trends can be fun to discuss with others.

Your home is a probable place for a wide variety of people to visit. You like to hear different opinions on a subject with which to compare your own. Freethinkers will love to meet at your house. Your possessions can reflect your individualistic outlook on life. There may be an erratic schedule at your house that matches the way the two of you need your freedom.

Ignoring or not supporting your partner's most cherished goals can create problems. It could be that you might need to communicate more when you have a serious difference of opinion about a major decision. It doesn't take much to get either of you to push on the rebelling buzzer. Each of you grows uncomfortable when there is a disagreement lurking in the air. The sooner it is resolved the better.

Let your intuition lead you to light a fire of new direction in each other's minds. You can learn to grow comfortable with each other's differences and to enjoy the similarities.

### **The Ascendant**

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

### **Ascendant in Libra**

People could see the two of you as diplomatic and outgoing types. Fairness through carefully weighing opposing viewpoints is a regular occurrence. A flair for dressing colorfully and in the right way for an occasion is typical of you. It is impressive how you manage to fulfill several social obligations and maintain a smooth way of interacting with others. You can feel like soul mates with a shared purpose. Entertainment tastes can be a particularly fun way of spending time together. You

---

can help one another stay cool during all forms of emotional weather. Your calendar can get creative in making time for romantic atmospheres.

### **The Part of Fortune**

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

### **Part of Fortune in Virgo**

The pursuit of excellence will lead you down an interesting path or two. Hard work is likely to pay off one day. Career and business longings can find you mastering the skills you enjoy the most. Serving the same causes can bring you a sense of joy and contentment. Health can be an area of avid interest. Living with your choices teaches you to accept life's ups and downs. Good fortune comes when you respond to life's lessons with a spirit of openness and humility.

### **Part of Fortune in the Twelfth House**

The imagination you inspire in each other has a way of magically opening the doors to lucky happenings. You must have the faith to follow through on your convictions. There is a creative intensity that rests greatly on trusting your intuitive awareness. You are a healing force for others. A talent for expressing yourselves artistically is possible. People are uplifted by your belief in them. The higher values you share sustain you in the mild or more turbulent seasons. Balancing your idealism with reality is a key to being happier and feeling a sense of unity.

This is a romantic liaison rich in personality. You make quite an impression on people. There is an atmosphere of wealth or royalty in your faces no matter the reality of your financial situation. Life seems to click when you spontaneously initiate new directions.

### **Saturn**

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

### **Saturn in Taurus**

You are smooth and graceful in working together. Taking care of practical concerns will normally run like clockwork. Your slow and methodological approach to getting a job done gets results. Neither of you cares much for stress provoking situations. People probably see you as a reliable couple. Friends and loved ones prefer your shoulders to lean on during their times of personal crisis.

## Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.
